Medical Device Industry Experience:

Mr. McCarley is currently the President & CEO of OPHTEC USA, Boca Raton, Florida, a subsidiary of OPHTEC BV, The Netherlands. OPHTEC develops, manufactures and distributes ophthalmic medical devices for anterior segment surgery and is currently sponsoring and conducting US FDA and Canadian HPB regulated clinical studies for Phakic IOLs, Endocapsular Tension Rings and Iris Reconstruction Lenses.

Mr. McCarley's Regulatory and Clinical Affairs experience includes developing Investigational Device Exemptions, Premarket Approval Applications and Notices of Substantial Equivalence (510(k)s, designing and managing FDA regulated clinical studies, and GMP compliance audits.

In 1982, Mr. McCarley joined the Medical Device Industry, and has since then held the following medical industry related positions:

Manager of Domestic and International Regulatory Affairs, CILCO (now Alcon)  
Manager, Regulatory and Clinical Affairs, Storz Instrument Company (now Bausch & Lomb)  
Manager, Regulatory Affairs, Hospital Products Division of Chesebroughs Ponds (now Sherwood Medical Company/American Home Products)  
Manager, Regulatory Affairs, Sherwood Medical Company  
VP Regulatory and Clinical Affairs, IntraOptics (now Bausch & Lomb)  
VP Regulatory and Clinical Affairs, Chiron IntraOptics (now Bausch & Lomb)  
President & CEO, McCarley Medical Device Regulatory Consulting Services  
Director (VP) Regulatory and Clinical Affairs, OPHTEC BV (Netherlands)  
VP of Operations, Apollo Eye Associates (multi-site ophthalmic practices)  
President & CEO, OPHTEC USA (present position)
